

# DREXI CASE STUDY

## Organic Oil Manufacturer

Drexix, an AMPS Company, is a non-traditional pharmacy benefits manager that helps save money at the pharmacy with fair, honest pricing. For our fully insured, and level-funded partners, we offer the ability to provide a savings analysis overview, even without claim-level detail information. Drexix's straightforward pricing means employers and employees pay exactly what a given prescription costs and avoid the markups. Other benefits include:

- Full-service, built from the ground up, state of the art, technology-based, Fiduciary PBM
- Agnostic to contracts, sourcing, formulary, rebates and plan design (increases lowest net cost effectiveness)
- Simple and easy to understand - fixed fee pricing per employee
- Premier nationwide network of 65,000+ pharmacies
- International sourcing with mail order
- Convenient formulary management
- Step Therapy, High-cost claims edits, PA to control high cost claims as well as PAP and MSP programs
- Complete transparent reporting
- Prescription history and spending reports
- Member-facing prescription management via portal to include a drug search capability

Drexix views partnerships with our clients as long-term. We want to minimize disruption as much as possible. Below are a few drugs highlighted to show what this potential client, an organic oil manufacturer in Massachusetts, would save if they moved to Drexix.
