CDC's Office of Health Equity Opportunities of Focus

Primary Areas of CDC's Office of Health Equity

The Office of Minority Health – Promotes evidence-based programs, policies, and strategies to improve the health and well-being of ethnic and racial minoritized populations.

The Office of Women's Health – Promotes evidence-based programs, policies, and strategies to improve the health and well-being of women and girls.

The Office of Equitable Population Health – Collaborates with the Office of Minority Health and the Office of Women's Health to establish a whole of public health approach to address health disparities and health inequities among populations that have historically been historically underserved and not benefitted equitably from progress in public health

CORE is CDC's Commitment to Equity

C

Cultivate comprehensive health equity **science**

CDC embeds health equity principles in the design implementation, and evaluation of its research, data, surveillance, and intervention strategies.

O

Optimize interventions

CDC uses scientific, innovative, and data-driven intervention strategies that address environmental, place-based, occupational, policy and systemic factors that impact health outcomes and address drivers of health disparities.

R

Reinforce and expand robust **partnerships**

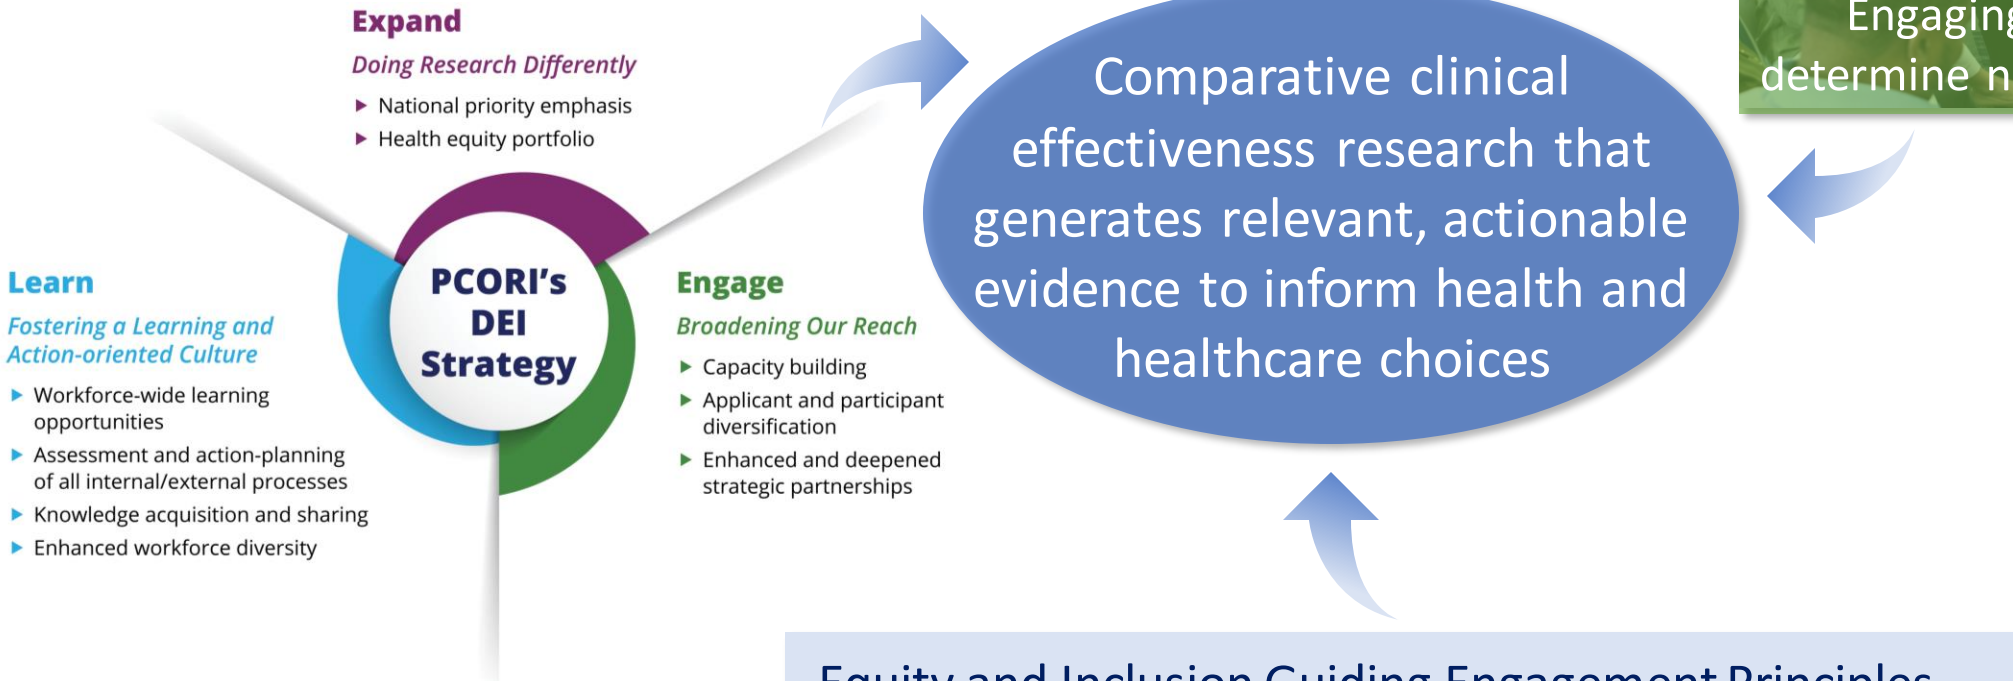

CDC seeks out and strengthens sustainable multi-level, multi-sectoral and community partnerships to advance equity and diversity within its organization and to sustain those relationships overtime.

E

Enhance capacity and **workforce** engagement

CDC builds internal capacity to cultivate a multi-disciplinary workforce and more inclusive climate, policies, and practices for broader public health impact.

PCORI's Approach to Advancing Health Equity

PCORI's Mission

Our Mission

Help people make better-informed healthcare decisions, and improve healthcare delivery and outcomes, by producing and promoting high-integrity, evidence-based information that comes from research guided by patients, caregivers, and the broader healthcare community.

Purchaser Business
Group on Health

Moonshot

1 Advanced Primary Care – Designation & Network

- Turnkey high-quality primary and specialty care national network built to reflect purchaser priorities. (The Health Plan that Says Yes)

2 Address Low-Value Care (CAA Tools and Support)

- Complete data and advisory services to establish fair pricing, outcome accountability and enable purchaser fiduciary success.

3 Maternal Health Equity

- Redesigned, patient-centric wholistic maternal care delivery system that achieves quality and equity.

4 Community Health and Well-Being

- A new approach and clear path enabling purchasers to invest in social and community needs to maximize health and well-being.

5 Mental Health

- Assure that employee and family mental health needs are met through the care delivery system, workplace and community.

PBGH Top Member Strategies for Health Equity

There is no quality of care without equity of care!

- Understanding health inequities, lived experiences and employee needs
- Transforming Advanced Primary Care and Maternity through PBGH workgroups including contracting, doula and birthing center coverage
- Sharing and requiring REaL data requirements and stratification, SOGI data still emerging
- Assessing vendors and creating accountabilities for equity
- Redesigning benefit coverage equitably across geographies, populations and health plans (i.e., fertility, reproductive health, LGBTQ+, language)
- Ensuring provider directories transparently display provider concordance and humility
- Addressing social needs of the workforce and communities
